PROFESSIONAL SUMMARY

Software Developer with 4+ years of experience building scalable web and cross-platform mobile applications. Specialized in React, React Native, and TypeScript, with a strong background in optimizing system performance, managing multi-client projects, and delivering high-impact user experiences.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML/CSS (SASS), Dart

Frameworks & Libraries: React, React Native, Angular, Node.js, Flutter

Tools & Methodologies: Git, Firebase, REST APIs, Claude Code, Playwright, Maestro, Agile/SCRUM

Languages Spoken: English (B2 - Professional Working Proficiency), Spanish (Native)

PROFESSIONAL EXPERIENCE

Galilei Smart Solutions | Frontend Developer (React)

Apr 2025 – Present

- Engineered and maintained the core web platform, executing code refactoring that significantly improved overall system performance and scalability.
- Managed the end-to-end development of web and mobile applications using React and React Native, driving features from initial design and implementation to production deployment.
- Integrated Claude Code and spec-kit workflows to accelerate development cycles, utilizing Playwright and Maestro for reliable cross-platform automated testing.

Pegaso Consulting | Frontend Developer (Angular)

Nov 2023 – Nov 2024

- Developed and deployed administrative features for the primary enterprise web application using Angular, enabling efficient multi-tenant adaptation for diverse clients.
- Architected and integrated robust REST APIs into the web ecosystem, ensuring fast and reliable frontend-backend data synchronization.
- Optimized system performance by refactoring legacy codebases, reducing component complexity, and increasing code readability and reusability.

APPS2GO | Frontend Developer (Flutter)

Mar 2022 – Jun 2023

- Built the architectural foundation of a mobile application in Flutter, explicitly optimized for low-resource devices requiring real-time response capabilities.
- Integrated Firebase as the backend architecture, managing authentication, secure storage, and real-time user data flow to ensure scalable performance.
- Translated complex Figma mockups into responsive, intuitive user interfaces utilizing Flutter's comprehensive widget suite.

EDUCATION

Universidad Alejandro de Humboldt | B.Sc. in Computer Engineering

Sept 2016 – Feb 2022

- Thesis Project:** Developed a cross-platform React Native mobile application featuring advanced Text-to-Speech functionality.
